Just making sure that all the we spoke about previously is good to go. The request summary that all coordinates for your containment on different days (11-12 MAR being different areas than 14-15 MAR) are correct. I have attached the maps again which depict these areas for their respective dates. If all coordinates contained in the request summary and maps still work for you, I will go ahead and approve the request as I see [REDACTED] has for you. Please confirm that you can work within these guidelines so we can move forward. That is all for now.

Thank you,

[REDACTED]
